

## Moment

*Bohemia 2015*

1)

Cold snowy weather  
it's april fools, whatever  
out of hope and full of dust  
'Can feel every second  
clock face works as a weapon  
last thing left to do is trust  
so I trust

2)

What's going on really?  
Flesh decays but the spirit?  
It's not easy to learn the Truth  
Who's student, who's teacher  
Each one may be a preacher  
See you all in solitude  
beseechers

**Ref1)**

Let me tell you more  
it takes just few more minutes  
'cause I've got message to share  
Namely Your God is mine  
and my God is yours  
made present all and everywhere

3)

Minute by minute  
approaching upper limit  
where's no root cause there's no pain  
Look at ur face in the mirror  
gets older, age is killer  
where was sunshine now is rain  
the winner

**Ref1)** 2x

*PART B*

4)

Time can be cruel, fate as well, isn't is moody?  
All unhappiness is what make you feel gloomy  
Woe  
that is woe.

5)

On the other hand a Lord of time has cheerful section  
What he once let split up now just waits for reconnection.  
Grow -like a one thousand years old tree  
Grow - natural progress forever  
Let me go in  
go in  
go in there  
overwhelmed

4)

5)

oh yeyey- one way only  
oh yeyey - never lonely  
oh yeyey - let me go in

6)

Time is - always fair  
fate as well  
isn't it groovy?  
Embrasing unity lead  
us softly and truly  
grow forever  
let it grow  
well let it go in  
go in  
go in there
