

Part of me

Bohemia 2015

1)

One part of me wants you here to hold me
another part of me doesn't mind
One part of me feels blue and lonely
another part of me know it's just for a while
for a while

2)

There's calling from darkness, there's shining of beauty
emotions on highway but I don't mind
What are you waiting for? Look right through me
we both do know it's just for a while
There is no always just sofar

PreCH

You and me
Could be like magic
Like fairytale, so unreal
Could be like magic – it's up to you, what do you want...
...could be like fairytale
Well, lets see what's gonna happen

CH)

We are pawns of fate
But responsible for our deeds
We are here to love and not hate

I wish you could stay
One more time close to me
I can feel but I'm not able to say

3)

One part of me wants you here to hold me
emotions on highway but I don't mind
So what are you waiting for? Look right through me
we both do know it's just for a while
There is no always just sofar

CH2)

Oh, heal my scars
give them a bit of sunshine
there are so many as the stars in the sky
And days go by
everyday new blow from suffering
and yet behind all this is divine
source
in you and all around is divine
source
in you and all around is divine
