Four knees under the table
and every single minute could last forever even longer
If we stay here, If we stay here – together

Sky-high feeling as starter
what is coming next, what choose Universe for a main course
After this ride – can you hear me, I stay here by your side
I'm ready to risk (2x) and are you?

2)

Unapproachable secrets
we keep for each other, most of them still covered for a reason
and I don't mind what happened, until all stay behind this second
You know
Last few years I was starving
Meals were coming up but not good enough for my taste
Yeah I'm picky, you're right, you hit the point, maybe you are my White Knight

Giving me all – everything you can, everything you get
Giving me all – forget about future, about my next step
Giving me all – treat me like a lady, with care and respect
May this day never end, never end
May this day never end
Oh lets just make it extend

It's been four weeks since the last meeting
And still that dirty little thing under the table make me think
If we stayed there (3x), If we

PreCH

If we now/yeah I mean You and me and our naughty revel (2x) .../- just gimme one more bite
It's real I can see You and me there and our naughty revel (4x)
last November night/ more more gimme more/ mmm...

CH2

Never ever forget the flames coursing through my veins
I could have met you thousand times under the thousand names
Now you see how I'm wicked, if you like it I 'lick' it
I'm all out of my control in my head pulsate what if we stay here
If we stay here (3x) then we just make it extend
